Abstract

Masani is one of the descriptions that is considered as the description of whole Quran among all the scriptures. Although commentators have expressed general meanings for this word, they do not consider it as an independent topic which does not need explanation and expansion. "Masani" implies explanation of the Quran' ayah by other ayah. "Sany" means refraining an object, and "Masani" connects a collection of Quranic words and subjects. The style of ayah can help us in better explanation of the meaning of "Masani". Therefore, in this study, the style of ayah in surah consisted of the element "Sany" or the term "Masani" is investigated, and Fateh surah is addressed as an evident example of "Masani" in Quran.
